Sir:

Prior to examination of the above-referenced application, please enter the following amendments and remarks.

IN THE CLAIMS:

Please amend claims 5, 6, 7, 8, 9, 10 and 16 as follows. All pending unamended claims have been reproduced in small type for ease of reference.

- 1                   1.     ~~(As filed)~~ A method for diagnosing an individual as being asthmatic, or as having a
- 2     predisposition to asthma, which method comprises demonstrating in the individual the presence or absence of one
- 3     or more alleles which are associated with asthma, wherein the one or more alleles which are associated with
- 4     asthma, wherein the one or more alleles are situated at a locus in a region of chromosome 4 of up to 1 megabase
- 5     in length, which region contains the locus D4S3032 and/or D4S2921.
- 1                   2.     (As filed) The method according to claim 1, wherein the method comprises the steps
- 2     of:
- 3                   (i)     obtaining a suitable tissue sample from the individual;
- 4                   (ii)    preparing from the sample a nucleic acid sample;
- 5                   (iii)   analyzing the nucleic acid sample for the presence or absence of the
- 6                   allele.
